Storage
Padding
Installation**

AND MORE!

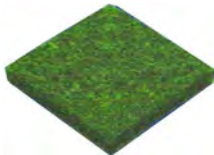

Pres-On is your reliable source for quality separator pad products. Our removable adhesive backed and non-adhesive separator pads are available in a range of custom shapes and sizes, as well as variable combinations of cork, felt and foam, providing the flexibility required for protecting delicate surfaces. Pres-On separator pads are ideal for protecting fragile glass, windows, doors, mirrors, easily scratched metal, paint-coated products and other breakable items from damage by absorbing vibration and reducing slippage during packing, shipping and installation.

Pres-On Separator Pads

Our in-house chemists develop 100% of the science behind Pres-On adhesives, enabling us to create custom formulations that fit your exact project specifications. We also utilize our proprietary wet-coating process to ensure the very best anchorage of masking and laminating films to our felts, foams and cork resulting in a superior product construction.

Product Descriptions
