AND MORE!

Our variety of mounting boards are offered uncoated or coated with innovative hi-tack (permanent), lo-tack (repositionable), and dry-tack (repositionable to permanent) adhesives. Pres-On Self-Stick™ Mounting Boards provide a fast, easy, and safe method for securely mounting a wide range of media. Retail displays, signage, photos, and graphics make a lasting impact when displayed on a Pres-On Mounting Board. Simply peel off the protective liner paper, press the project into place, and enjoy.

Converting Capabilities:

- Adhesive Coating (custom formulations)
- Laminating (various substrates)

Services:

- Cut-to-size
- Bulk & retail packaging

Pres-On Self-Stick™ Mounting Boards

Pres-On proudly creates the industry leading adhesive coated mounting boards that customers ask for by name. Mess-free and easy-to-use, Self-Stick™ Mounting Boards eliminate the need for spray mount, rubber cement, and other types of glue. Additionally, our paper, foam, and plastic Self-Stick™ Mounting Boards can all be cut to a wide range of custom and standard frame sizes from 5"x7" up to 48"x 96".

Board manufacturers also take advantage of our full-service adhesive coating and laminating capabilities. Supply us with the mounting boards and we can adhesive coat, laminate, and cut to the desired specifications. This includes double and single side acrylic adhesive coatings and various substrate lamination combinations - board to board, cork to board, magnet to board, and more.
