

For over half a century, Pres-On adhesive coated tapes have improved gasketing and sealing in a wide assortment of products, ranging from household appliances to high-tech electronics. In fact, it is hard to name an industry that has not benefitted from Pres-On.

Pres-On Advantages

- **Complete Adhesive Anchorage:** Our wet coating process allows maximum adhesive penetration to foam substrates. In addition to assuring a permanent bond, this process provides optimal sealing protection against moisture, dust and air.
- **Research & Development:** Working together with our customers, our R&D chemists and technicians apply science to the most demanding PSA applications assuring peak performance.
- **Custom Sizes & Configurations:** From large diameter (up to 27 inch), single-wound to extreme length spool-wound, Pres-On's coating and converting facilities have the capacity to meet the most stringent specification criteria.

Additional Markets Served

In addition to the markets where Pres-On is recognized as the leader — such as HVAC, lighting, RV/Marine, windows and doors — our products can be found improving quality, performance and value in these applications:

- Agricultural equipments
- Aluminum awnings
- Bins and hoppers
- Building: portable
- Caskets
- Coolers (electric)
- Cold storage bins and doors
- Doors (accordian)
- Electrical boxes
- Furniture
- Games (electronic)
- Jewelry cases
- Loudspeaker systems
- Mobile office equipment
- Medical appliances (braces, splints)
- Orthopedic equipment
- Overhead doors
- Radio parts and equipment
- Ruler manufacturers
- Spray booths
- Solar systems
- Truck cabs and caps
- Transformers and components
- Vacuum systems
- Appliances
- Audio components
- Bins for storage
- Canopies
- Control panels
- Car ports
- Cases, cabinets (electrical)
- Dispensing machines
- Freezers
- Garage doors
- Instruments
- Jewelry earring displays
- Metal fabricating (buildings)
- Metal furniture
- Name plates
- Office equipment
- Office furniture
- Partitions
- Signs (electric)
- Sheet metal fabrication
- Traffic signals and boxes
- Tool boxes
- Vending machines
- Vehicles
